So to use your own as not to injure another

“First: No man is to deprive another of his
property, or disturb him in enjoying it.

“Secondly, every person is bound to take due
care of his own property, so as the neglect
thereof may not injure his neighbor.

“Thirdly, all persons must so use their right, that
they do not ... damage their neighbor’s property.”

—Giles Jacob, 1729 (A New Law Dictionary)

Goals

As servants of our community, state, and country, we can no longer stand idle while property value is demolished; properties are taken off tax rolls; schools and county services suffer; families and lifestyles are destroyed; and roads, churches, clubs, banks, and other businesses and community services close. To this end, we will:

- Present information and perspectives in a straightforward, plain-speaking way.
- Provide factual information regarding domestic resource providers.
- Create an environment of civil discourse in a respectful manner (i.e. encourage DEBATE!)
- Function as a clearinghouse for truth on a national level.
- Provide leadership in support of principles which guide us to “do no harm.”

www.GoodNeighborLaw.com provides a venue for presentation of ideas, facts, and first alerts!

Good Neighbor Law does not provide legal advice. We will listen to your situation and help direct you to the experts.

Become a member and help produce a Good Neighbor Forum, and facilitate town hall and other meetings.

Because Good Neighbor Law is run solely by volunteers, it is the purest, non-partisan “go-to” place for facts and truth on the World Wide Web.

Membership

“Membership in Good Neighbor Law constitutes inclusive representation of those who have an interest in supporting the Good Neighbor philosophy of fact and truth seeking, regardless of political or religious affiliation.”

—Mark V. Trostel, Chairman
Retired Chief, Colorado State Patrol

Contributing Educators

Our growing field of contributing educators is known and respected worldwide. They generously bring gifts of knowledge to you!

Minute by minute, these professionals contribute factual information on federal, state and county proposals that jeopardize your food and fuel; policies connected to CO₂, LOST, ESA, conservation easements, TNC, taxation, illegal immigration NAIIS, and more.

They provide the answers on how you can protect your land, water, livelihood, values, privacy, liberty, freedoms, and family. Contributing educators outline how a “good government” should behave, and how to stop bad government.
